RURAL MUNICIPALITY OF WEST ST. PAUL SCHEDULE "B" TO BY-LAW NO. 2023-07 LOCAL IMPROVEMENT PLAN NO. 2023-01

Pursuant to subsection 315(1) of The Municipal Act

(a) **DESCRIPTION OF THE PROPOSED LOCAL IMPROVEMENT**

The Local Improvement proposed herein involves the following:

Installation of wastewater sewer pipes, lift station and forcemain, including surface restoration in the areas known as Hiawatha Avenue, Minnehaha Avenue, Kenabeek Street, Nye Avenue, Baldock Street and Evelyn Avenue in the RM of West St. Paul. The lift station and forcemain service the Hiawatha Avenue, Minnehaha Avenue, and Kenabeek Street catchment area.

The residents known as the current Hiawatha Avenue, Minnehaha Avenue, Kenabeek Street, Nye Avenue, Baldock Street and Evelyn Avenue residents are currently supplied water by individual wells and sewer treatment is serviced by holding tanks and/or septic fields.

Council has concerns regarding potential liability claims due to failing private septic systems allowing untreated wastewater to enter into municipal road allowance ditches. To promote environmental stewardship in the RM, Council was approved funding under the Manitoba Water Services Board to install a gravity sewer collection system and eliminate environmental concerns with all private septic systems in this LID.

The project has been initiated by the Council of the RM of West St. Paul to provide a cost-effective means of treating wastewater while protecting the health of the community located within the Manitoba Conservation Red River Corridor Designated Area that was established in 2009 by Provincial Regulation.

There is a public health concern and potential environmental issues for the nearby Red River due to septic fields failing and grey water and wastewater being diverted into municipal ditches. The existing homeowners are in the Red River Corridor where the installation of new septic fields is prohibited.

In 2013 Council of the RM of West St. Paul passed By-Law 2013-05 wherein it provided for the construction of a main trunk line and lateral service lines along Main Street for a Wastewater System within the municipality with an estimated cost of \$16,000,000.00. Funding was received from the Canada-Manitoba Building Canada Fund – Communities Component (BCF-CC) program in the amount of \$8,000,000.00 and from the Manitoba Water Services Board in the amount of \$2,000,000.00.

Local Improvement Plans for local servicing of properties have previously been approved in the areas known as Riverdale, Lister Rapids, River Springs, Rivercrest, Rossmore Avenue, and Addis Avenue. All work on private property and the connection cost to the City of Winnipeg will be paid directly by the property owner at the time of connection.

(b) LOCAL IMPROVEMENT DISTRICT WHICH THE LOCAL IMPROVEMENT TAX WILL BE IMPOSED

The Local Improvement Tax required under this proposal will be levied on

• all benefiting properties in Local Improvement District (LID) as identified on the attached Schedule "C" and the attached map.

(c) IDENTIFICATION OF POTENTIAL TAXPAYERS UNDER THE PLAN

Under this Local Improvement plan, council is proposing to create a new LID which would include the following:

• The owners of the rateable property in the LID known as Hiawatha Avenue, Minnehaha Avenue, Kenabeek Street, Nye Avenue, Baldock Street and Evelyn Avenue.

(d) METHOD AND RATE OF CALCULATING THE LOCAL IMPROVEMENT TAX

The local improvement tax to be levied under this proposal will be based on a special per parcel rate of the lands benefited by the improvement or service for the LID. The rates are to be calculated as follows:

Per Parcel Rate Hiawatha Avenue, Minnehaha Avenue, Kenabeek Street

- Cash option of \$35,416.67 per parcel, or
- Finance option of \$3,447.72 per parcel to be levied annually for 20 years

Per Parcel Rate Evelyn Avenue, Nye Avenue, Baldock Street

- Cash option of \$27,314.81 per parcel, or
- Finance option of \$2,659.03 per parcel to be levied annually for 20 years

Pursuant to Section 325 of *The Municipal Act*, any potential taxpayer within the LID may, within 30 days following the completion of the work, pay in one principal sum that part of his/her share of the debt and thereafter no special rate per parcel shall be levied against his/her property.

It shall also be a requirement that all benefiting property owners within the LID connect to the proposed gravity wastewater sewer system within ten (10) years as per the following regulation:

The Onsite Wastewater Management System Regulation 83/2003 of The Environment Act of Manitoba states in part as follows:

"Requirement to connect to new wastewater collection system 8.1.(1) If a wastewater collection system is installed in an area not previously serviced by a wastewater collection system, an owner of land in that area must

- a. connect his or her wastewater sources to the wastewater collection systems; and
- b. take any onsite wastewater management system or privy located on the land out of service and decommission it; before the earlier of
- c. the passing of 10 years from the day that the wastewater collection system was installed; or
- d. the transfer or subdivision of the land."

(e) Estimated Cost of Local Improvement / Sources of Funding

Total cost of the project is estimated at \$7,200,000.00. The Rural Municipality of West St. Paul has been approved for a grant totalling \$3,600,000.00. This grant is from the Manitoba Water Services Board. The remaining balance of \$3,600,000.00 will be borrowed.
